**Subject:** RE: TASC Q/A for WLL CAG

Thanks, Dan. I agree that we need to change our language in A1. ☺ In A7, I didn't mean to recommend that a risk assessment be done, so we'll look at that language more closely. We'll send a copy of the draft that goes to the CAG.

Terrie

Terrie, thanks for sharing TASC's answers to these questions. I have one comment on your responses: in A1, I am not sure that the words "inconceivable" and "interminably" are appropriate.

I did note your recommendation in A7 that "...a human health risk assessment is needed to determine the level of chronic health risk to community members" and was curious as to your basis for this recommendation, and whether you had reviewed the existing risk assessments prior to making this recommendation. Maybe we can chat about this after the next CAG meeting on June 16.

I'd appreciate receiving a copy of the Q/A you provide to the CAG, so we can place it in our files.

Sincerely,  
Daniel R. Gravatt, PG

Principles and integrity are expensive, but they are among the very few things worth having.

Hi Dan,

Over the past 6 months, we have received email and verbal questions from various CAG and community members that we have not yet answered. The attached document paraphrases these questions and provides a TASC answer. As with our fact sheets, we are providing you with a courtesy copy for review in advance of giving the document to the CAG. We appreciate any comments that you have. Our goal is to make sure that we provide factual information about the site and don't inadvertently misrepresent any facts.

3.0

I would like to take this document to the CAG meeting on Monday, but realize that doesn't give you much time to review.

Thanks.  
Terrie
